NIGHT MARKET

Player's guide: every trait, unit, item and augment. Tap any name to jump to it.

TRAITS | UNITS | ITEMS | AUGMENTS | STATUSES

Units cost 1 to 5 gold. Three copies merge into a 2-star, three 2-stars into a 3-star. A unit fills its mana by attacking and being hit, then casts its ability.

Traits switch on when you field enough *different* units that share one. Most units have an origin and a class.

Items: two components on the same unit combine into a completed item. A unit holds three.

Emblems are items that make the holder count as one more unit of a trait.

Augments are permanent bonuses you pick from three, a few times a game.

Unit cost: 1 2 3 4 5 Ability numbers read 1-star / 2-star / 3-star. Health and Attack grow with stars; the other stats do not.
